# Jamb push plates

Automatic swinging doors

Description

Jamb push plates improve overall door access and seamlessly integrate with automatic door operator activation. ADA compliant push plates are available in two graphic options.

Jamb push plates are a low profile alternative to regular size plates and can be mounted in areas with limited space available, such as on guide rails.
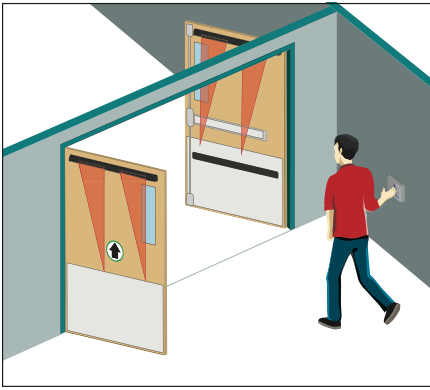

Jamb push plates may be hard-wired to the door operator or connected to dormakaba wireless transmitters.

Features & benefits

- 1/16" thick stainless steel for maximum durability.

- Concealed fasteners to minimize vandalism.

- Complete kits available including plates, mounting boxes, and optional wireless devices for ease of ordering.

- Available with text "Push to Open" and International Symbol of Access (ISA) icon or with ISA icon only.

- Compatible with both surface and flush mount boxes.
